

Injury To One – Is Injury To ALL *Please Join Our Fight*

The Commissioner of Education Deborah Gist and the Superintendent of Schools in Central Falls Frances Gallo have decided to fire all 74 teachers at Central Falls High School.

- This action is being taken after teacher evaluations were performed over the past 2 years and not one teacher was placed on any form of corrective action.
- This action is being taken without following due process procedures.
- This is a direct attack on collective bargaining rights.

This outrageous act is being used simply to ‘bust’ the union. They’re starting in Central Falls - but where will it end - is your Union next?
